PEOPLE PLACES & THINGS PHOTOGRAPHICS NATIONAL CLIENT TESTIMONIALS

"Thank you for the video tour, slide show, and CD calendar. They are all beautiful. The entire Perez team, including our design sub consultants, are delighted with the beautiful photography produced by your team. The photography and videos really show the new casino at its best. The lighting and angles of the various shots are truly descriptive of the casino experience, showing all the most exciting interior design, architectural, and lighting features to best effect. Also, your team was very professional, efficient, and speedy in completing the work, while staying out of everyone else's way. We appreciate everything you did to complete the photography before the Grand Opening, which occurred 3 weeks early!!" All the best,

Angela O'Byrne, AIA • President
Perez, APC • New Orleans, LA

"Kevin and Pamela Beswick did an amazing job at capturing the elegant details of one of our new casinos. We have since used much of their work in marketing and sales materials. They were extremely professional and worked well with our internal operations teams. The photos were amazing, and they were very quick to turn around final prints. I would highly recommend Kevin and Pamela Beswick."

Angela Wise, Director Brand Management
Harras Entertainment, Inc. • Chicago, IL

"Kevin was selected to photograph a major sculpture by internationally acclaimed artist Michele Oka Doner. The sculpture functions as the floor of the main level of Frederik Meijer Gardens & Sculpture Park. The photo shoot required the highest degree of technical expertise and creativity to interpret the artist's vision, shooting a series of overlapping images straight down from a low ceiling height, adjusting for overhead lighting, natural light falloff and high contrast between the dark terrazzo and reflective bronze figures embedded in the floor. Post production required stitching together up to 13 images into each panoramic view—several were produced for this project. The results were stunning, and Kevin's technical expertise and willingness to experiment with unproven methods convinced me he was the right person for this unique project. Although he has built a fine reputation as an architectural photographer, I expect he is likely to gain even more accolades as the "go-to guy" for covering grand scale art and sculpture."

Roger Bleiler, Communications Manager
Frederik Meijer Gardens & Sculpture Park • Grand Rapids, MI

"It is a pleasure to recommend Kevin & Pamela. The project they did for us this last year was very successful; especially since they had so many "clients" to deal with. It is not easy to satisfy 90% of the consultants on any project when photographing an architectural project they have all worked on."

Frank Douglas, President
The Douglas Group • Houston, TX

"We hired Kevin to take photos of a hotel resort that we had designed in Michigan. The photos he took showed great composition and a wide range of scales from architectural detailing to overall character. He showed the project in daylight and nighttime settings, all within a very reasonable price. PP&T is the best value photographer I have used in a very long while. We will now use PP&T for many of our projects, regardless of location."

Meade Mitchell, Principal
TBG Partners • Houston, TX

"I personally accompanied Kevin and Pam on the shoot for FireKeepers Casino. Kevin is a great photographer with a good eye for architecture, and Pam is a creative designer; they make a great team and provide an exemplary product at a great value. I will use them again and would highly recommend them."

Marty Peck, Principal
Creative Lighting Design & Engineering • Germantown, WI

"The photography of the Firekeeper's Casino was amazing. Everyone that has seen it has had nothing but good things to say. Kevin and Pamela followed up with a nice calendar showcasing the photography as well, which is sitting on my desk. I look forward to working together again in the future."

Johnny Massey, Vice President Marketing
Americas at Brintons, Atlanta, GA

TALENTED TEAM; EXCEPTIONAL RESULTS

"Kevin & Pam are everything you want in a photographic team. While I am amazed at the quality of work in their architectural portfolio, I've used Kevin and Pam for a number of shoots ranging from formal portraiture to product photography including a working die casting machine amidst spraying molten metal. In all situations, they bring a tireless work ethic, fresh visual perspective, technological innovation, and an overall value that is first-rate."

Mike VerStrat, Creative Director
Elexicon • Grand Rapids, MI

"Spectacular photography gives us an edge. Well shot and choreographed photography used in proposals, advertisements, marketing collateral and on the Web can communicate more effectively in an instant and with more impact than just about any other information I can provide. I would highly recommend People Places & Things Photographics. In addition to their expertise, Kevin and Pam have an easy working style and a 'can-do' attitude that lends itself to the often hectic and inflexible schedules in my line of work."

Jennifer VanSkiver, VP Marketing Communications
Rockford Construction Company • Grand Rapids, MI

"Kevin & Pamela, I would recommend PP&T to any kitchen & bath showroom trying to market their business using photography. Your photographs of our showroom displays allow us to market the uniqueness of our business. They also allow people to get an idea of what they will experience when they visit our showroom. We use your photographs on our web site and other marketing materials, such as magazines, billboards, and television ads. Your photographs of residential kitchens accurately reflect our designers' creative skills and the quality of the cabinetry we provide. Your level of professionalism is always appreciated."

Roger Bronsink, Owner
Starlite Kitchens & Baths • Grand Rapids, MI

"Kevin, the Horseshoe Casino images are FANTASTIC, the media will love these. Thanks so much and keep them coming! The images of The Venue are beautiful!!"

Leah Eisenstein, Public Relations Account Director
XA, The Experiential Agency • Chicago, IL

"Kevin and Pam demonstrated strong attention to detail and an artist's eye, providing us with clean, professional photos and well-composed video showcasing our LED lighting installations. They were very easy to work with, offering creative ideas, flexibility, and outstanding communication. Kevin and Pam were truly amazing partners throughout the process, and I highly recommend their talent for any project."

Sarah Prange, Marketing & Sales Associate
Traxon Technologies, an OSRAM Company • East Rutherford, NJ

"I've worked with photographers all of my career and you certainly are exemplary. Really, your work is just excellent and what amazes me is that you do it with such facility. I've worked with photographers who take so much time setting up shots that everyone involved becomes a little impatient. And their work doesn't show half the quality of yours. Pam, you're a real asset to PP&T. You were so helpful offering valuable information on things I never even thought about. My heartfelt thanks to both of you."

Lois A. Servaas, Media Relations
Blue Cross Blue Shield • West Michigan

"I've long considered Kevin and Pamela Beswick of People Places & Things Photographics to be a valuable part of our team at Eastbrook Homes. Not only are they incredibly prompt and professional with their work - but they bring great ideas to the table and work very hard for us in the marketplace to get shots of our products in industry publications, increasing our exposure among clients and peers. Kevin takes beautiful photography and Pam has a great eye for the detail that really makes shots work. Selling homes is a very emotional business. Kevin and Pam get that and work very hard to capture the elements that speak to our customers through their photography."

"Kevin and Pamela have provided a great product at a great value and most importantly have worked for us as if our company was their company. They have truly been business partners, not just a service provider." | "Kevin is a terrific photographer. His architectural photography is vivid and creative. Eastbrook Homes has hired People Places & Things Photographics repeatedly and we have not been disappointed. Pam, rounds off this duo with a terrific sense of design and creativity. She too has been a great asset to us in our efforts."

Mick McGraw, President | Kristy Harrington, Marketing Director | Tim Dickinson, IT Director
Eastbrook Development • Grand Rapids, MI

"The Home and Building Association of Greater Grand Rapids wants to go on record as highly endorsing Kevin and Pam Beswick and People Places and Things Photographics. Their attention to detail is extraordinary and their assurity of accuracy is unparalleled."

Judy Barnes, CAE/BIAE, Executive VP • HBAGGR

"Kevin shot the Grand Rapids Art Museum for us, and the pictures were amazing. He's got a wonderful eye."

Cheryl Pisha, Marketing Manager
Pepper Construction • Chicago, IL
