

**We Build West Michigan Communities**

**Why We're Better by Design**

Eastbrook Homes has been building beautifully designed homes in uniquely planned communities in West Michigan for over 40 years. By design, Eastbrook has perpetually expanded its commitment to building homes with outstanding craftsmanship, exceptional value and excellent service. Mick McGraw leads the way, inspiring the Eastbrook team, to build each home as if it were their own.

Eastbrook Homes ongoing commitment to preservation of the natural environment for future generations has earned numerous prestigious national awards to the benefit of its homeowners. Eastbrook Homes communities are thoughtfully planned around existing tree-lined and natural areas and then enhanced with lush landscaped cul-de-sacs, tree lined boulevards, walking trails, playgrounds and parks. All are uniquely designed to provide a community where you can enjoy that true "hometown" feel.

Seeing the Green built and Energy Star® logos on a home means it has met or exceeded a tough, national standard for quality. Eastbrook Homes has received national recognition as a builder who meets these national standards. Over the past year, 13% of all new Energy Star® homes built in the state of Michigan, were built by Eastbrook.

Rated top five nationally Eastbrook Homes state of the art Home Creation Studio won a 2008 Silver Award from the National Association of Home Builders (NAHB). The 4,000 sq. ft. design center features cutting edge kitchens, entertaining islands with furniture style vanity cabinets, spa and bath vignettes, interior finishes, exterior trim and siding options plus home theatre systems. The Home Creation Studio affords buyers the ability to choose all of their selections in one stress free location while allowing them to stay within a budget they set for themselves.

Discover for yourself why Eastbrook Homes is "Better by Design".
